

KEVIN BENI

Contact : kevinbeni08@gmail.com | University of South Carolina | Columbia, SC

Professional Summary

Aspiring computer and information research scientist with a deep intellectual interest in artificial intelligence, data-driven innovation, and emerging technological ecosystems. My academic preparation has cultivated a strong foundation in programming, algorithmic reasoning, and information systems architecture, supported by technical proficiency in Java, Python, HTML, CSS, and ArcGIS. I am highly motivated by the transformative potential of artificial intelligence and advanced analytics to enhance decision-making, elevate user experience, and optimize organizational performance. I hold certifications as an Information Technology Specialist in Python and OSHA-10 General Safety, demonstrating both technical aptitude and a commitment to continuous professional development. My long-term ambition is to leverage analytical insight, creative problem-solving, and innovative thinking to engineer intelligent, scalable, and high-impact technological solutions that advance the future of computing across industries.

Skills

Programming: Java, Python, HTML, CSS

Tools: ArcGIS, Eclipse, VS Code, Microsoft Office, Google Workspace

Core Strengths: Communication, Leadership, Time Management, Customer Service, Collaboration

Languages: English (Fluent), Spanish (Basic)

Experience
